

Dear Washington City Home Owners

The Public Works Department is putting together a registry of all the Home Owners Associations within the city. The purpose for creation of a contact list is to better communicate and exchange information with these associations as it relates to Storm Water management, drainage and other Public Works issues. We are primarily looking for the names and phone numbers of the officers of each HOA or the property manager.

Currently the city is in the midst of an inspection and cleaning program of the storm drain infrastructure. Much of the infrastructure is within the management of HOA'S therefore we would like to put together a contact list so that we can work more closely with the HOA'S to accomplish mutual goals.

I can be reached by E-Mail at hhomer@washingtoncity.org, pubworks@washingtoncity.org. By phone at 656-6317 or by mail at 1305 E Washington Dam Rd. Washington, Utah 84780

Thank You

Harvey G Homer

Public Works Inspector
