

WASHINGTON CITY REQUIREMENTS FOR SOLAR PERMIT SUBMITTAL

The following are required for permit submittal:

1. Building permit application completed and signed
2. Net Metering application, in full with ordinance (for property located in Washington City Power service area, this is not required for property in Dixie Power service area).
3. (2) copies of the plans to include: One-page site map and single line drawing. These documents must indicate the location of the solar electrical modules, the inverter, batteries (if any), lockable disconnect switch, and point of connection with the utility system. The installation address, current account number at that address, and the installer's name and telephone number must also be included on the one page site map and single line drawings.
4. Signed approval from HOA board if applicable

Submit all of the above to the Washington City Building Department.
